EDUCATION

University of Nebraska-Lincoln

Bachelor of Arts in Computer Science, Minor in Mathematics

Lincoln, NE

Aug. 2022 – Present

EXPERIENCE

Software Engineer

August 2025 – Present

Farm Credit Services of America

- Delivering high-quality software solutions, collaborating with stakeholders to define requirements and objectives.
- Developing intuitive UI mockups and prototypes to improve user experience and design clarity.
- Conducting thorough testing and applied agile practices to solve real-world challenges efficiently.

Peer Mentor @ OASIS & CAST

August 2023 – May 2025

University of Nebraska-Lincoln

Lincoln, NE

- Provided academic and social support to first-year students, facilitating their transition to university life.
- Led one-on-one and group mentorship sessions focused on time management, study strategies, and campus resources.
- Organized and facilitated workshops on stress management, academic success, and career development.

PROJECTS

Personal Webpage | *HTML, CSS, JavaScript, EmailJS*

Feb 2025 – Present

- Designed and developed a responsive and visually appealing personal portfolio using HTML, CSS, and JavaScript.
- Implemented EmailJS for seamless email communication.
- Deployed the webpage using modern web hosting solutions for scalability and reliability.
- Implemented media queries to ensure a seamless and mobile-friendly experience across various screen sizes.

Non-Profit Website | *React, Vite, Typescript, SQLite*

Oct 2025 – Oct 2025

- Developing a nonprofit website for the Yazidi Youth Council to promote community events, youth programs, and cultural awareness.
- Designed a modern, responsive UI using React and Tailwind CSS, inspired by peacock- and Yezidi-themed color palettes.
- Built interactive sections including Projects, Gallery, Events, and Donation pages to enhance engagement.
- Implemented smooth navigation, clean layout, and accessibility-focused design for a professional online presence.

Full Stack E-Commerce Site | *C#, .NET, SQLServer, Javascript, MVC, IDESIGN, React*

Nov 2024 – Dec 2024

- Developed a full-stack e-commerce platform using C#, SQL Server, JavaScript, and React within the MVC architecture.
- Utilized IDesign architectural patterns to structure the backend for scalability and maintainability.
- Designed and implemented a secure user authentication system with role-based access control.
- Built interactive product browsing and search functionality, enhancing user experience with React UI components.
