EDUCATION

University of Nebraska–Lincoln — Lincoln, NE
Bachelor of Science in Computer Science, Minor in Mathematics — *Expected May 2026*

EXPERIENCE

Yazidi Technologies Inc | *Swift, Kotlin, DevOps* — Lincoln, NE
Software Engineer — *January 2026 – Present*
- Collaborating with a development team to design and build a mobile application focused on preserving and teaching the Yezidi language.
- Developing and iterating on user-friendly interfaces and learning flows to improve accessibility and engagement for language learners.
- Implementing, testing, and refining **5+ core features** using agile practices to ensure reliability and a polished end-user experience.

Farm Credit Services of America | *Angular, .NET, REST APIs, DevOps* — Lincoln, NE
Software Engineer — *August 2025 – Present*
- Delivering high-quality software solutions while collaborating with cross-functional teams to define requirements and ensure a polished product.
- Developing and iterating on frontend components and UI mockups to align with user needs and stakeholder feedback.
- Conducting thorough testing and applying agile practices to efficiently identify issues and deliver reliable solutions.

University of Nebraska–Lincoln — Lincoln, NE
Peer Mentor — OASIS & CAST — *August 2023 – May 2025*
- Provided academic and social support to first-year students, facilitating their transition to university life.
- Led one-on-one and group mentorship sessions focused on time management, study strategies, and campus resources.
- Organized and facilitated workshops on stress management, academic success, and career development.

PROJECTS

Personal Webpage | *HTML, CSS, JavaScript, EmailJS* — Feb 2025 – Present
- Designed and developed a responsive personal portfolio using HTML, CSS, and JavaScript.
- Implemented EmailJS for seamless email communication.
- Deployed the site using modern hosting solutions for scalability and reliability.

Non-Profit Website | *React, Vite, TypeScript, SQLite* — Oct 2025
- Developed a nonprofit website for the Yazidi Youth Council to promote community programs and cultural awareness.
- Designed a modern, responsive UI using React and Tailwind CSS.
- Implemented accessibility-focused design and smooth navigation.

Full Stack E-Commerce Site | *C#, .NET, SQL Server, JavaScript, React, MVC* — Nov 2024 – Dec 2024
- Built a full-stack e-commerce platform using C#, .NET, SQL Server, and React.
- Applied IDesign architectural patterns to ensure scalability and maintainability.
- Implemented secure authentication with role-based access control.
